

## Product and Services Guide

To find a supplier of Products or Services just click on one of the Headings below. If you would like your company to appear in this feature either [click here](#) to buy on-line, or contact [productservices@stainless-steel-ind.com](mailto:productservices@stainless-steel-ind.com)

**At present this guide is very UK based but as the World Wide Web makes it just as easy to view this site in Mumbai or Beijing as it is in Sheffield or Birmingham UK, there are many reasons why companies around the globe would benefit by listing their product and services here. Cost for a single entry is only £60 for a year! Your entries also appear in the Product Guide in the printed magazine. And we are always happy to create new headings for you if none currently suit.**

**KEY:** **Purple:** Wrought & Cast Products  
**Green:** Manufactured Components  
**Blue:** Processing Services  
**Yellow:** Processing Equipment

Figures in brackets show the number of entries under that heading.

<a href="#">Bar (19)</a>	<a href="#">Rod (4)</a>	<a href="#">Manifolds (0)</a>	<a href="#">Electropolishing (5)</a>
